Licence API

OPC et SDK

Description

La licence API est utilisée par le serveur OPC et le kit de développement logiciel AlphaCom (SDK). Le serveur OPC et le SDK communiquent avec l'AlphaCom grâce au protocol TCP/IP. Pour que le serveur fonctionne, une licence doit être ajoutée à l'AlphaCom. Dans un réseau AlphaNet, tous les serveurs doivent posséder leur propre licence API.

Caractéristiques OPC

- Normes fondées sur l’intégration avec OPC et Microsoft .NET
- Véritable interopérabilité et évolutivité avec OPC et Microsoft .NET
- Temps de mise en oeuvre et coût d’intégration du système réduits
- Configuration rapide et simple, seule une configuration limitée des données est requise

Caractéristiques SDK

- Intégration facile des serveurs AlphaCom XE avec le logiciel de gestion du système sur Microsoft .NET
- Environnement de développement Microsoft Visual Studio
- Un grand nombre de composants de la bibliothèque
- Temps de mise en oeuvre et coût d’intégration du système réduits
