SPA-W1-D

Panneau de sonorisation double résistant aux intempéries

IP-66

Description

- Panneau de sonorisation résistant aux intempéries pour double système
- Préamplificateur intégré avec niveau du signal et tonalités préréglés
- Nécessite un microphone avec bouton PTT
- Prise pour microphone à main waterproof P-66 ou P-66/10
- Montage mural en intérieur ou en extérieur
- Relais mute local pour le haut-parleur externe (à partir de la version 4.0)

Ce panneau résistant aux intempéries permet de diffuser des messages généraux au sein d'un système double de sonorisation et d'alarme générale SPA-V2.

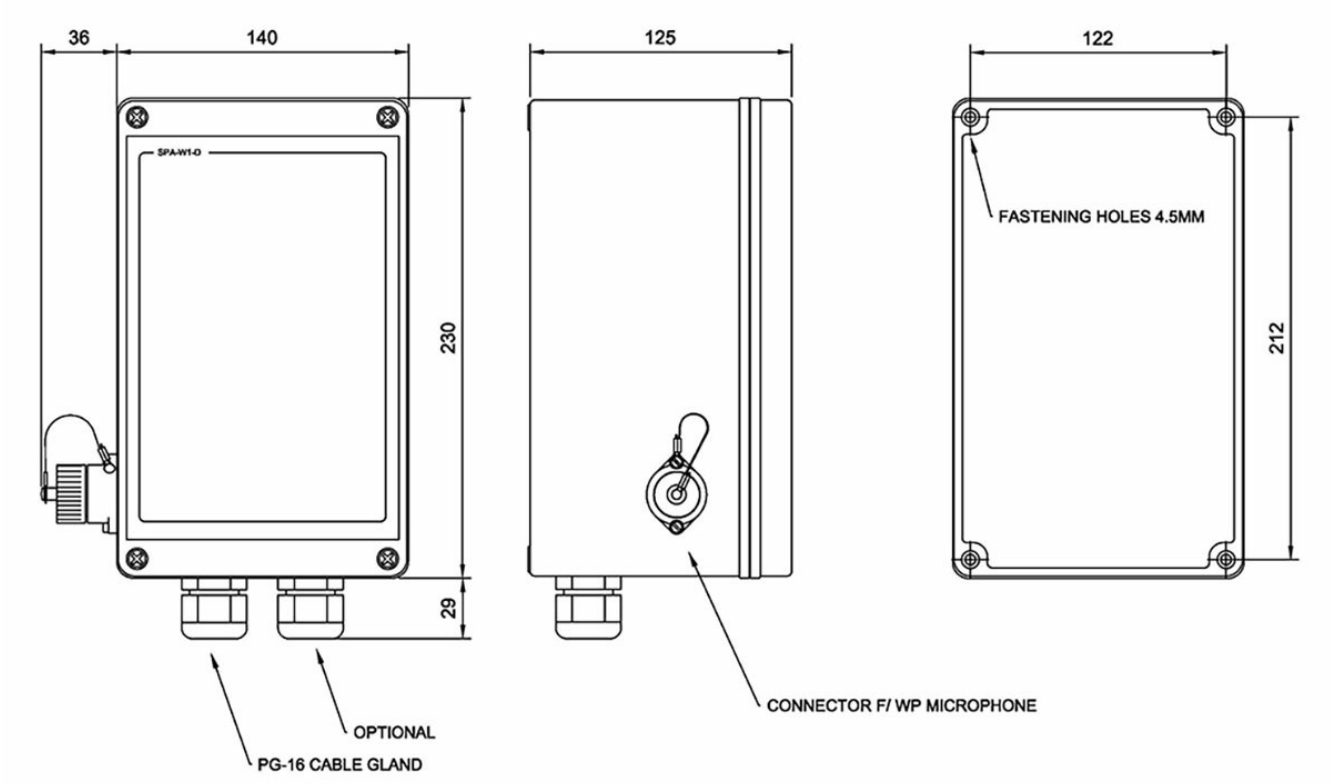

La fonction mute permet de couper le son des haut-parleurs dont la proximité avec le panneau de sonorisation entraîne un effet Larsen. Disponible à partir de la version 4.0, cette fonction doit être utilisé en complément d'une boîte de relais.
