Passerelle DVB to IP 8x

Passerelle extra avec 8x entrées DVB-S/S2/T/T2/C/C2 + 8 slots CI

Description

La passerelle DVB to IP est la solution idéale pour recevoir, décoder et diffuser en multicast ou en unicast les canaux TV satellite, terrestres et câble. La force de la passerelle DVB to IP vient de la grande capacité et compacité de son serveur monté en rack 1U qui permet de recevoir et décoder 8 transpondeurs/multiplexeurs. Les 8 entrées DVB et les 8 slots Interface Commune (CI) sont situés à l'arrière de l'appareil. À utiliser couplé au serveur TV IP 8000 si plus de 8 tuners DVB sont nécessaires.
