Pro CAM - Viaccess

Viaccess Profesional CAM / 4 channels

Description

The VIACCESS PRO CAM enables professional head-ends to simultaneously decode 4 scrambled services (TV programs) with the VIACCESS Conditional Access System.

Inserted directly into the Integrated Receiver/Decoder (IRD) DVB-CI slot, the VIACCESS PRO CAM provides multi-descrambling features compliant with a 24/7 operation required by customers of digital TV.

Used With

IPTV Server 8000

IPTV main server with configuration, 8x DVB-S/S2/T/T2/C+8x CI slots
