Pro CAM - Irdeto

IRDETO Profesional CAM / 4 channels

Description

The IRDETO PRO CAM enables professional head-ends to simultaneously decode 4 scrambled services (TV programs) with the IRDETO Conditional Access System.

Inserted directly into the Integrated Receiver/Decoder (IRD) DVB-CI slot, the IRDETO PRO CAM provides multi-descrambling features compliant with a 24/7 operation required by customers of digital TV.

Used With

IPTV Server 8000

IPTV main server with configuration, 8x DVB-S/S2/T/T2/C+8x CI slots
