Description

The EHS-110O rotary signal light provides clear visual indication of incoming calls or alerts in high-noise or visually demanding environments. Used with Zenitel TFIE industrial telephones and other analog/IP communication stations, it helps ensure that calls are noticed even when audible alerts are insufficient.

Designed for industrial and marine environments, the EHS-110O features a robust IP54 housing, impact-resistant dome, and easy mounting. This model operates on 110 V AC and is available in several dome color variants to suit different alerting needs.
