VIC2-2BRI-NT/TE

Cisco Two-port Voice Interface Card - BRI (NT and TE)

Description

ISDN Voice Interface Cards (VICs) connect directly to Public Switched Telephone Networks (PSTNs), Private Branch Exchanges (PBX), and Private Access Branch Exchanges (PABX), supporting both on-premise and off-premise connections.

VIC2-2BRI-NT/TE provides terminal equipment (TE) or network termination (NT). Connects as network side or user side to PBX or key system as off-premises connections (ISDN voice BRI). Supports patent-pending flexible Layer 2 (L2) and Layer 3 (L3) configurations.

Specifications
