DCT-720

DECT Cordless Handset for Mobility

- Up to 10 SIP accounts per handset
- 3-way voice conferencing
- Full HD audio
- 3.5mm headset jack
- DECT authentication & encryption technology to protect calls and account
- Automated provisioning

Description

The Vingtor-Stentofon DCT-720 allows the user to unbind themselves from their desk and move freely and efficiently throughout the work environment. When paired with the Vingtor-Stentofon BS-750 Base Station, DCT-720 handset offers a mobilized VoIP solution for any business or residential user.

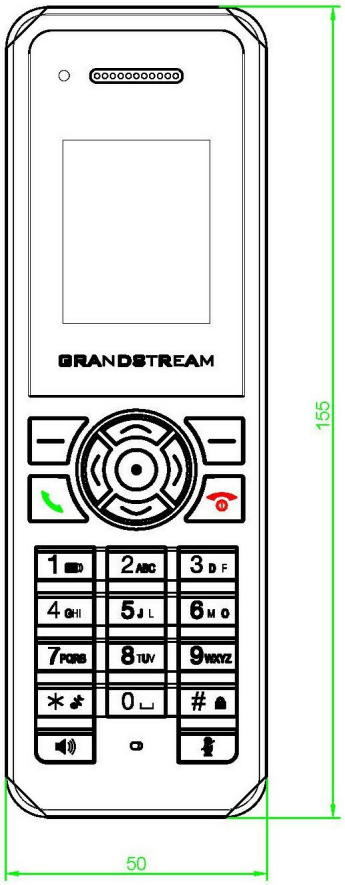

This mobile DECT handset is the ideal choice for users who are looking to be mobile and have access to essential call control features. Up to 5 DCT-720 handsets can pair with a single BS-750 DECT base station, and each support up to 10 SIP accounts, full HD audio, a 3.5mm headset jack, multi-language support, a speakerphone and more.
