Emergency Communication Tower / Stanchion

1601 Econo Tower

This product is only available in the Americas

Emergency points

Description

- Economical and Reliable Emergency Communications
- Extremely Durable Design Resists Environment and Vandalism
- LED Blue Light Flashes when Unit is Activated - LED Blue Light is Constantly On
- Easy to Install Versatile Modular Design
- Unit Meets All ADA Requirements
- Design Can be Customized to Meet Customer Requirements (color and lettering)
- Voltage Options - 120 VAC, 12/24 VDC & 24 VAC
- Note: All IP Turbine Intercoms Require IP station license.

The Emergency Stanchion is a vandal resistant 9’6” tower designed for use with the Zenitel hands-free emergency stations. It is ideal for college campuses, open lot parking facilities, medical centers, city streets, and any other open space where security is a concern.

The stanchion comes equipped with an integrated blue light. The LED blue light is always lit, calling attention to the location of the emergency intercom. The LED light automatically pulses when the emergency intercom is activated. The pulsing continues until terminated by the security personnel receiving the emergency call.

The tower is made of a vandal resistant 1/4” thick steel column with a multi-coat, rust inhibitive coating design to withstand prolonged exposure to harsh environments. The blue light is located on top of the column.

The Stanchion lettering can include the word “EMERGENCY” or "ASSISTANCE" emblazoned on all four sides in high reflective letters. Other lettering choices are available. The station has a LED front panel that illuminates the face of the emergency intercom.

The Turbine series of stations and the 1600TA Plate with TA-18USA backbox (107216008140) are both ordered separately. See more information on the specifications page for part numbers.
