- Personal directory, redial and speed-dial lists
- Audible and vibrating ringers
- Soft key feature access
- Push-to-talk (PTT) mode with 25 channels including one priority override channel

Onboard communication HD Voice

Description

With market-leading HD voice quality, durability, broad telephony and WLAN interoperability, the Spectralink 8440 Wi-Fi handset delivers a superior user experience with Spectralink VQO (Voice Quality Optimization). The Spectralink 84-Series is powered by UC software that provides full integration with all major SIP call platforms including Microsoft Skype for Business®, Cisco call servers and others.

The 84-Series delivers high-quality, secure communications to meet the needs of mobile workers in the maritime and energy industry - empowering them to stay connected and work more efficiently throughout their workplaces.

WiFi Handset - Advantages

- Seamlessly integrates with third-party, industry-focused applications, as well as XML applications
- Combines a mobile phone, pager, two-way radio and barcode scanner into one versatile device
- Leverages your existing wireless LAN infrastructure for voice and data applications
- In 2017, the 8400 won a Unified Communications (UC) Product of the Year award from TMC
