ICX-AlphaCom Core

- Made to provide critical communication in any environment
- Supports 552 IP stations
- Global networking and integration
- Fully compatible with legacy AlphaCom system
- High quality professional PA broadcasting and messaging services
- Security voice guidance for public safety and building security
- Auto-attendant functionality (Automatic voice supported switchboard)
- Voice supported call guidance

Description

ICX-AlphaCom Core is the software which is running on the ICX-510-IA, but now available for installation on industry standard PC hardware. ICX-AlphaCom Core can be installed either on a physical machine or virtual machine.

ICX-AlphaCom Core offers the same functional capabilities as the ICX-510-IA, and will provide your location will all the communication needs you may have. It is easy to extend in functionality and system size, and designed to be future-proof. The system can be tailored to support applications of almost unlimited specificity and complexity.

Zenitel's ICX (Intelligent Communication X) implies the deployment of Voice over IP applications required in critical situations.

Specifications

PRODUCT NUMBER	SHORT CODE	DESCRIPTION
1002600000	ICX-Core_x64	ICX-Core for x64

MINIMUM REQUIREMENT	
CPU	Core i7, 2GHz clockspeed
Memory	1 GByte
Harddisk	15 GByte
Operating System	Linux - Ubuntu 22.04 LTS - this is a strict requirement
Virtual Machine	The VM must be defined with 1 processor, 1 GB RAM and 15 GB harddisk as a minimum

Used With

ICX-510-IA Intelligent Communication Gateway

ICX-510 incl ICX-AlphaCom Core

Item Number: 1002000110
