ITCS-1A-24VDC

Single Call Control Unit for Inelteh Call System (24VDC)

- Single call control unit for Inelteh Call System (ITCS-A)
- Buzzer and red "ALARM" LED for call indication
- Green LED for power status
- "ACCEPT" button silences buzzer but keeps visual alarm active
- Flush mounting

Description

The ITCS-1A-24VDC is a single call control unit for the Inelteh Call System (ITCS-A), designed for shipboard use in hospitals, cold rooms, and other critical areas. It ensures separate call acceptance and reset, meaning the alarm remains active until manually reset at the call location.

- Call indication – Equipped with a buzzer and red "ALARM" LED for clear alerting.
- System power control – Includes a "POWER" switch to turn the system on/off.
- Power status display – A green LED indicates the unit is operational.
- Call acceptance function – Pressing the "ACCEPT" button silences the buzzer while keeping the visual alarm active.
- Call reset requirement – The visual alarm remains active until manually reset at theITCS-RS reset unit or ITCS-C4 call unit.
- Flush mounting

The ITCS-1A-24VDC enhances onboard safety by ensuring alerts are acknowledged before being cleared.
