ITCS-2A-230VAC

Dual Call Control Unit for Inelteh Call System (230VAC)

- Dual call control unit for Inelteh Call System (ITCS-A)
- Buzzer and red "ALARM" LED for call indication
- Green LED for power status with "DIMMER" adjustment
- "ACCEPT" button silences buzzer but keeps visual alarm active
- External alarm relays for enhanced safety monitoring
- Flush mounting

Description

The ITCS-2A-230VAC is a dual call control unit for the Inelteh Call System (ITCS-A), providing call monitoring, acceptance, and system management for shipboard hospitals, cold rooms, and emergency response areas. It enables efficient call handling with separate call acceptance and reset, ensuring all calls are properly acknowledged.

- Call indication – Features a buzzer and red "ALARM" LED for clear alerting.
- System power control – Integrated "POWER" switch to turn the system on/off.
- Power status display – A green LED indicates the unit is operational, with a "DIMMER" function to adjust brightness.
- Call acceptance function – Pressing the "ACCEPT" button silences the buzzer but keeps the visual alarm active.
- Call reset requirement – The visual alarm remains active until manually reset at the ITCS-RS reset unit or ITCS-C4 call unit.
- External alarm relays – Includes relays for external signaling and power failure alarm.
- Flush mounting

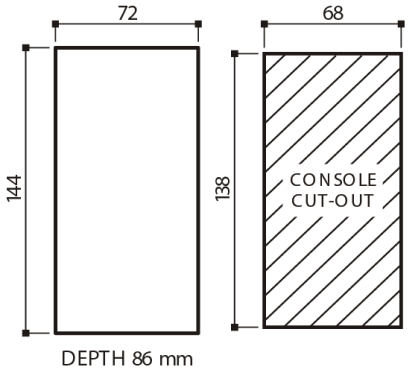

Designed for reliable shipboard emergency response, the ITCS-2A-230VAC ensures calls are properly processed and acknowledged.
