ILI-AN2 / ILI-AN8, AlphaNet License (2 Lines and 8 Lines)

AlphaNet License

Description

- Networking of ICX-AlphaCom over IP networks
- Made for Critical Communication over IP - CCoIP®
- Feature rich – all features available across the network
- Easy to configure, monitor and manage
- Wideband audio providing excellent sound quality for Public Address and intercom
- Backwards compatible - ICX-AlphaCom can be connected in an AlphaNet to AlphaCom E/XE which have the equivalent license

The license for AlphaNet makes it possible to establish communication between ICX-AlphaCom, AlphaCom E and AlphaCom XE nodes in an IP network. The AlphaNet technology is made for Critical Communication over IP and includes functions such as alternative routing, priority calling, group calls, conference calls, IP firewall and IP priority.

AlphaNet makes all ICX-AlphaCom and AlphaCom E/XE features available across the IP network, providing a consistent feature and service set regardless of location. The combination of feature richness, high audio quality and CCoIP® makes AlphaNet the perfect technology for advanced networked security applications like multi-site solutions, networked public address, remote radio conferencing, and centralized control rooms to mention just a few.

The AlphaPro tool provides time saving utilities such as cluster programming of an AlphaNet with global features and numbers
