DATASHEET

1002600500

ILS-AMP

IP-AMP License

Description

The Exigo Amplifier Channel License allows you to connect an Exigo Network Amplifier to ICX-AlphaCom over IP. The license provides access to a wide set of public address features.

An Exigo Network Amplifier has multiple channels. You can choose to use these channels individually or combine channels in superchannels. You would need one license per channel that you need to address from ICX-AlphaCom. This means that combined channels only require one license.

An Exigo Channel License uses the same amount of ICX-AlphaCom resources as an IP station. The maximum total number of IP station licenses + Exigo Amplifier Channel Licenses supported by ICX-AlphaCom is 552.
