## Description

NVX is an IP FULL HD super low-light CCTV camera with high corrosion resistance. This camera incorporates the DELUX imaging and encoding technology for recording incredibly clear colour video day or night. In particular, thanks to the camera's increased light sensitivity, the DELUX technology can obtain bright images with well-defined colours in very low light conditions – even typical night-time conditions to 0.006 lux (0.0006 lux in black and white).

Videotec's NVX CCTV camera is super low-light Day/Night Full HD 1080p, with 30x optical zoom and 60 fps shooting speed. Images can be transmitted via network with H.264/AVC, MPEG4, MJPEG or JPEG compression, and it's possible to have up to 3 simultaneous and independent Full HD video streams. The NVX external housing is made entirely from AISI 316L stainless steel and has a compact and lightweight design that, along with the quick connectors, helps installation and maintenance.

The modular support for wall, ceiling or parapet mounting is a standard feature and the camera includes integrated screen wiper. NVX has exceptional corrosion resistance, a wide operational temperature range and IP66/IP67/IP68/IP69 protection. These features mean it is well suited for marine and energy CCTV solutions.
