Description

VSP-213M-L Main Station: Dependable Onboard Batteryless Telephone

The VSP-213M-L Main Station, part of our reliable 20-Way Batteryless Telephone System, is tailored for ships needing consistent and clear secondary communication. This unit's design allows for flexible installation and operation, making it a solid choice for strategic communication across a vessel. Key aspects include:

- ✓ Flexible Installation: Options for flush, wall, or desk mounting cater to various onboard needs.
- ✓ Selective Calling: Enhanced with a 10-position selector switch and a 2-position group selector for efficient communication between stations
- ✓ Designed for Strategic Placement: Ideal for accommodation areas, ensuring communication remains uninterrupted, even during power failures.

The VSP-213M-L is crafted for vessels that prioritize dependable and efficient communication in line with global safety standards.
