Cisco C9115AX Access Point with embedded WLC - Canada(A)

The 9115AXI-EWC Series Wi-Fi 6 access points comes with a built-in controller. The Cisco Embedded Wireless Controller on Catalyst 9100 Access Points provides an easy-to-deploy and manage option that does not require a physical appliance. The control resides on the access point so there is no added footprint or complexity. And, because it uses Cisco Catalyst 9800 Series code, it's easy to migrate your network as your needs grow.

CISCO Certified
