Description

The MDIST-V2000 is a compact mains distribution unit designed for professional PAVA rack installations. It provides ten individually fused and switchable outputs, featuring both IEC 60320 C13 and high-current IEC 320 C19 (16A) connectors. Housed in a 1U, 19” rack-mountable chassis, the unit includes front-facing green power indicators for clear status visibility and full compliance with EN 54-4 standards. For added safety, all connectors support locking to prevent accidental disconnection

Used With

V2000

PAVA 2000W Power Amplifier Mainframe
(0 amps Pre Installed)
