RAK-DUCT-01

Cooling Duct 1U for the V2000

- 1U rack-mount air duct for the V2000
- Optimum V2000 cooling along with the RAK-FAN-01
- Simple 19” rack installation
- Directs and channels cooling up through a V2000 stack
- An Integrated part of the Zenitel EN 54-16 Certified PAVA system

Public Address | Voice Alarm | Commercial Audio | Civil Defence Approval | EN54 EN 54 Certified

Description

The RAK-DUCT-01 is a 1U rack-mount air duct designed specifically to complement the RAK-FAN-01, ensuring optimal cooling for stacks of V2000 amplifier frames installed in a single cabinet. Positioned between the V2000 units, the duct effectively channels airflow upward through the cooling slots of the V2000 chassis, facilitating efficient heat dissipation.

For more information on system design and effective heat management strategies, please refer to the Zenitel System Design Guide.
