Description

The RAK-DUCT-01 is a 1U rack-mount air duct designed specifically to complement the RAK-FAN-01, ensuring optimal cooling for stacks of V2000 amplifier frames installed in a single cabinet. Positioned between the V2000 units, the duct effectively channels airflow upward through the cooling slots of the V2000 chassis, facilitating efficient heat dissipation.

Used With

V2000

PAVA 2000W Power Amplifier
Mainframe (0 amps Pre Installed)

RAK-FAN-01

Fan Shelf 1U for the V2000
