Voice Alarm Commercial Audio EN54 EN 54 Certified

Description

The EAP01 Emergency Announcement Point is housed in an IP65 vandal resistant, lockable wall mounted enclosure. It is normally used for making All-Call emergency announcements to entire facilities.

The unit features indicators for ‘Busy’, ‘Speak Now’, and ‘System Fault’, together with a ‘Status’ indicator. The EAP01 will operate in an All-Call mode even in the event of processor failure within the Router1, as required by BS5839 Pt.8. The unit should be connected to Router’s inputs 1 or 2, which operate in the All-Call failsafe override mode in the event of processor failure.
