- STURDY METAL FIREDOME
- EASY INSTALLATION WITH QUICK MOUNT CLAMPS

Public Address Voice Alarm Commercial Audio EN54 EN 54 Certified

Description

The SPCB-80W-80-EN54 is a 80W 100V ceiling loudspeaker fitted with a Firedome for voice alarm applications. It has an 8” (200mm) 2-way bass reflex loudspeaker chassis with a high-quality neodymium tweeter providing excellent sound quality for speech and background music. Certified to EN 54-24, the speaker is fitted with a 100V transformer with four power level adjustment tappings of 80W, 30W, 15W and 7.5W, selectable using a rotary switch on the front of the speaker, behind the grille. Low impedance operation is also possible.

The sturdy metal Firedome housing in RAL 9016 (traffic white) guarantees long-term durability. For additional reliability, a thermal fuse is provided. The speaker is protected to class IP 21C and the speaker chassis is treated against damp. Easy installation is made possible through quick-mount clamps tightened using a simple screw system. The finely perforated speaker grille can be removed quickly for access to the power rating switch and the grille can be easily replaced by a different coloured grille, even after installation.
