- 6W / 100V
- SIZE 5” (130MM) FULL RANGE CHASSIS
- QUICK AND EASY MOUNTING
- POWDER COATED METAL CHASSIS

Public Address Voice Alarm Commercial Audio

Description

The SPCF-06W-50 is a 6W 100V flush mount ceiling loudspeaker, which has a 5” (130mm) full-range chassis providing excellent sound quality with speech and background music. The speaker is fitted with a 100V transformer which has three power adjustment tappings of 6W, 3W, and 1.5W. The SPCF-06W-65 has a powder coated metal chassis and grille, with the high quality finish giving good long-term protection and resistance to corrosion. As standard the speaker is coloured to match RAL9010 ‘Pure White’, however the speakers can
be supplied in any four-digit RAL or NCS colour, as a special order.

Quick and easy ceiling mounting is provided through the use of spring clamps, with a possible ceiling thickness of between 2mm and 45mm. The 100V loudspeaker line cabling is connected by means of a simple and quick two-pin push-clamp.

This loudspeaker is optionally available with a DC blocking capacitor fitted, in order to provide compatibility with DC loudspeaker line monitoring systems. The part number for this DC monitoring compatible version is SPCF-06W-50-DC.
