Description

The HT20370 ENIX Client for 2 monitors is a high-end platform with an enhanced chassis that includes external disc bays at the front. The i5 processor option ensures state of the art computing performance is delivered. It is the most versatile rugged PC solution for the professional maritime segment. The item comes with a rack kit with side rails.

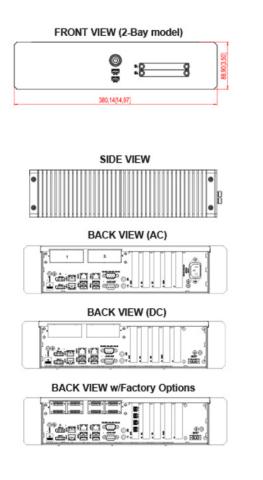

The ENIX Client is the successor to the best in class and highly successful ENIX-2087 computer. The new model incorporates the latest processor technologies and enhanced feature sets, thus providing greater versatility for high-end maritime system applications.
