Description

The P7304 Four Channel Video Encoder is a full-featured, 4-channel video encoder that adds the benefits of IP surveillance to any analog camera system. It supports standard and HD analog cameras up to 4K resolution, and analog PTZ cameras. The enhanced security features such as signed firmware and secure boot protect the integrity and authenticity of the encoder's firmware.

P7304 Four Channel Video Encoder

The encoder has Zipstream with support for H.264/H.265 video compression which significantly reduces bandwidth and storage requirements. It features two-way audio, I/O ports, and a memory card slot for edge storage. It also comes with intelligent analytics such as motion detection, audio detection, and tampering alarm.
