Wall cabinet 10 HU 600x543x600 mm IP-20

Description

Our Single-Section Indoor Cabinet is designed for indoor applications, offering convenience and versatility. With its removable side panels and sturdy construction, this cabinet provides an efficient solution for your installation needs.

Equipped with two adjustable 19" mounting profiles, this cabinet provides the flexibility to position your system components as desired, accommodating various equipment sizes and configurations.

Efficient cable management is facilitated by the cable openings on the top and bottom plates, which are covered with knock-out blanking plates. Additionally, each plate features three venting holes, promoting proper airflow and ensuring optimal cooling for your equipment.

Installing the cabinet is a breeze, as the door, side panels, and mounting profiles can be effortlessly assembled without the need for any tools. This streamlined setup process saves time and effort during installation. For convenient maintenance and adjustments, the side panels can be easily removed after opening the door. This
