Unit for Calling and Call Reset in Inelteh Call System

- Unit for calling and call reset in Inelteh Call System
- Water-resistant (IP-56) design
- Illuminated call button (green) for visibility
- Illuminated reset button (red) for status indication

## Description

The ITCS-C6 is a water-resistant (IP-56) unit designed for calling and call reset within the Inelteh Call System. It features an illuminated green "CALL" push-button for easy activation and a red "RESET" push-button that lights up when a call is active. The unit ensures visibility in dark spaces, making it suitable for various onboard applications.

- Illuminated call button (green) – Stays on when the system is powered, ensuring visibility.
- Illuminated reset button (red) – Lights up when a call is active and turns off once the call is reset.
- Water-resistant (IP-56) design – Provides durability in demanding environments..

The ITCS-C6 enhances safety and accessibility, providing a clear and visible emergency call solution for onboard environments.
