Public Address Voice Alarm Commercial Audio EN54 EN 54 Certified

Description

The SPCM-25W-50-EN54 is a 25W 100V 2-way ceiling loudspeaker fitted with a firedome for voice alarm applications. It has a 5” (130mm) loudspeaker chassis with a high quality tweeter providing excellent sound quality for speech and background music. Certified to EN 54-24 the speaker is fitted with a 100V transformer with three power level adjustment tappings of 25W, 12.5W and 6.25W. Low impedance operation is also possible.

The impact-resistant ABS housing in RAL 9016 guarantees long-term stability. For additional reliability, a thermal fuse is provided. The speaker is protected to class IP 21C and the speaker chassis is treated against damp.

Easy installation is made possible through a simple screw mounting system. Using a magnetic fastening, the finely perforated speaker grille can be removed quickly for access or it can be easily replaced by a different coloured grille, even after installation.
