CAB-LAN Distribution rack

Distribution rack for up to 24 LAN extensions

- Tailored to meet maritime specifications
- Perfect for LAN and IPTV distribution
- Installation-friendly with easy access to all terminals
- Single power module without switchover

Network

Description

The CAB-LAN rack is an innovative solution designed specifically for shipboard environments requiring efficient LAN distribution. This wall-mounted cabinet offers a space-saving alternative to traditional floor-mounted units, making it ideal for installations where space is at a premium.

Key Features:

- With a depth of only 350mm, the CAB-LAN rack is perfect for small areas where larger cabinets are impractical.
- Suitable for LAN, IPTV, and CCTV systems requiring local network distribution.
- Comes with an empty 3HU bracket, allowing for customizable setups with your choice of LAN switch, patch panel, and cable manager.

- Can be equipped with DIN-mounted fiber switch and flowire for expanded functionality.

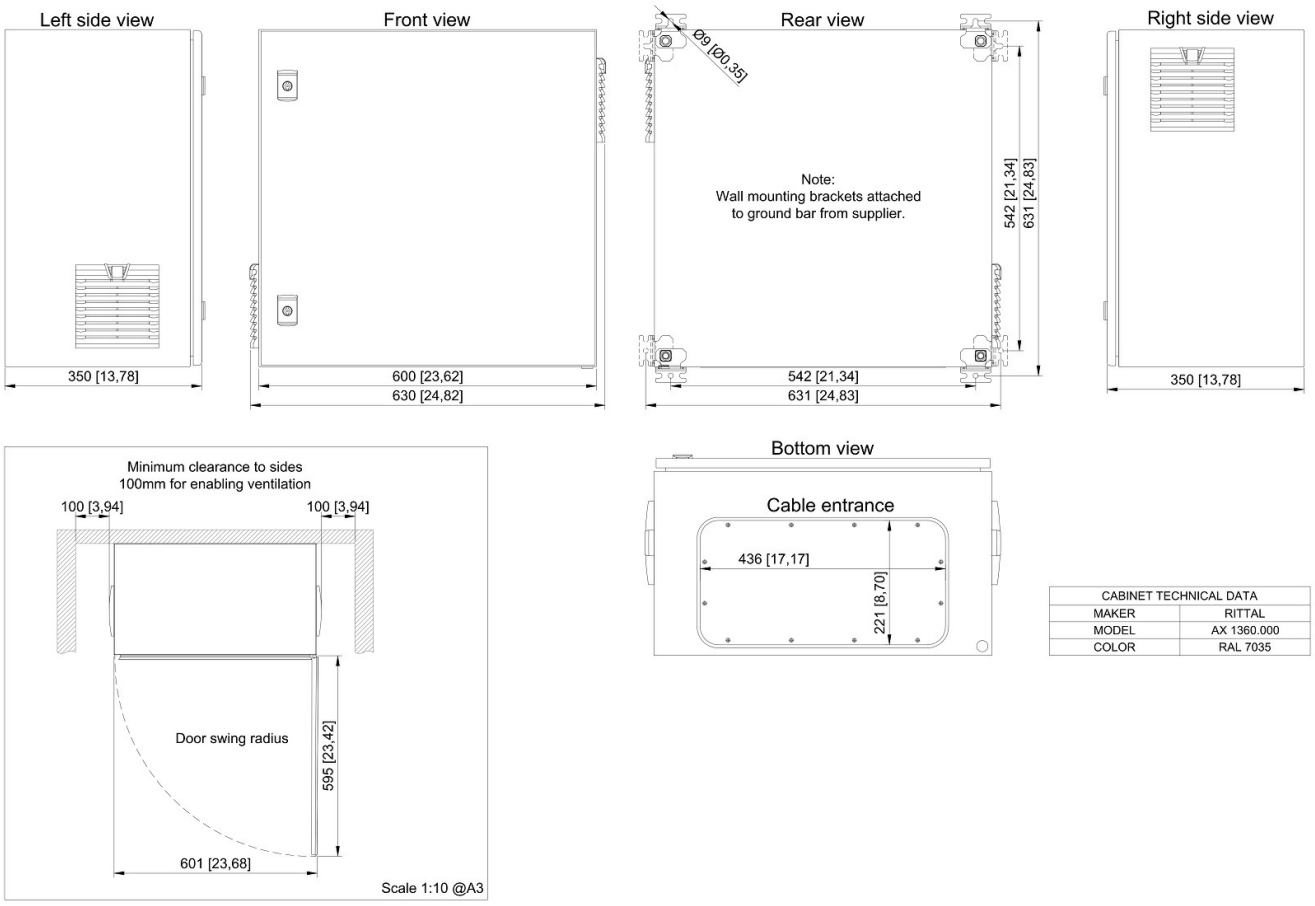

Technical Specifications:

- Mounting: Wall-mounted
- Depth: 350mm
- Power Supply: Single, non-redundant

Note: Due to its single, non-redundant power supply, this unit is not recommended for use with type-approved systems requiring redundancy.

The CAB-LAN rack offers a streamlined solution for maritime network infrastructure, combining compact design with flexible configuration options to meet the unique challenges of shipboard installations.
