Zenitel Connect Pro - Integration license - ZCL-API

License for integration via REST API and PubSub API

License to activate Zenitel Link

Zenitel Connect

Description

Zenitel Connect Pro - Integration license - ZCL-API is the collection of REST API and PubSub API for data communication and real-time event monitoring with Zenitel Connect Pro. This license is required for integrations with other security systems. A single license opens the possibility for such security systems to communicate with Zenitel Connect Pro, independent on the number of systems which require such data communication.

PubSub API in Zenitel Connect Pro offers real-time event monitoring of audio assets from a third-party security platform. With this integration, the control room operator can get notification when the devices go on/off, update on conversation status, such as idle, ringing, and in conversation, and device I/O state changes.

Zenitel Connect Pro is designed to complement your security systems such as video management system and access control with unified critical communications; enhancing situational awareness, reducing response time, and optimizing overall security posture. By embracing open standards such as SIP, ONVIF, and REST API, we simplify integration for you to deliver security solution faster. Zenitel Connect Pro natively integrate with industry-leading security providers opens new business opportunities, and therefore strengthening your security offerings.
