

Zenitel Intelligent Communications Unified with the LenelS2™ OnGuard® access control system®

- Automates processes by linking common security events through the LenelS2 OnGuard platform.
- Simultaneous live audio, video, and alarm monitoring gives full situational awareness for better decision making and faster response.
- Exceptional intelligibility means users can hear, be heard and be understood – every time.
- Continuing strategic business partnership between LenelS2 and Zenitel provides seamless updates, Tier 1 tech support, and the LenelS2 Value-Added Reseller (VAR) purchasing channel.

What is possible with a unified system?

Intelligent Communication is driven by Intelligent Integration. Audio becomes intelligent by seamlessly integrating it into the core business and security applications within the organization. The integration possibilities are endless.

 LENEL·S2

 LENEL·S2

LenelS2 is a worldwide provider of open-platform security solutions with integrated access control and video management.

 **KEEP A 360-DEGREE VIEW**
Link access, video, and communication events in the OnGuard platform to improve situational awareness.

 **NOTIFY ACROSS SYSTEMS**
Broadcast live or custom pre-recorded voice messages across all audio systems, or trigger automatically on alarm or status change.

 **SUPERVISE AND MONITOR**
See and verify the status of each device in the System Status tree and the OnGuard Maps feature.

 **CLICK TO CALL**
Initiate intercom calls to any device from the System Status tree and the OnGuard Maps feature.

 **VERIFY VISUAL IDENTITY**
Enable dual verification of identity through video and audio communication.

 **LOG COMMUNICATION EVENTS**
OnGuard Events Report feature provides a record of all communications events, for business optimization and liability protection.

 **MAP CALL SOURCE**
Easily identify where calls originate in the OnGuard Maps feature.

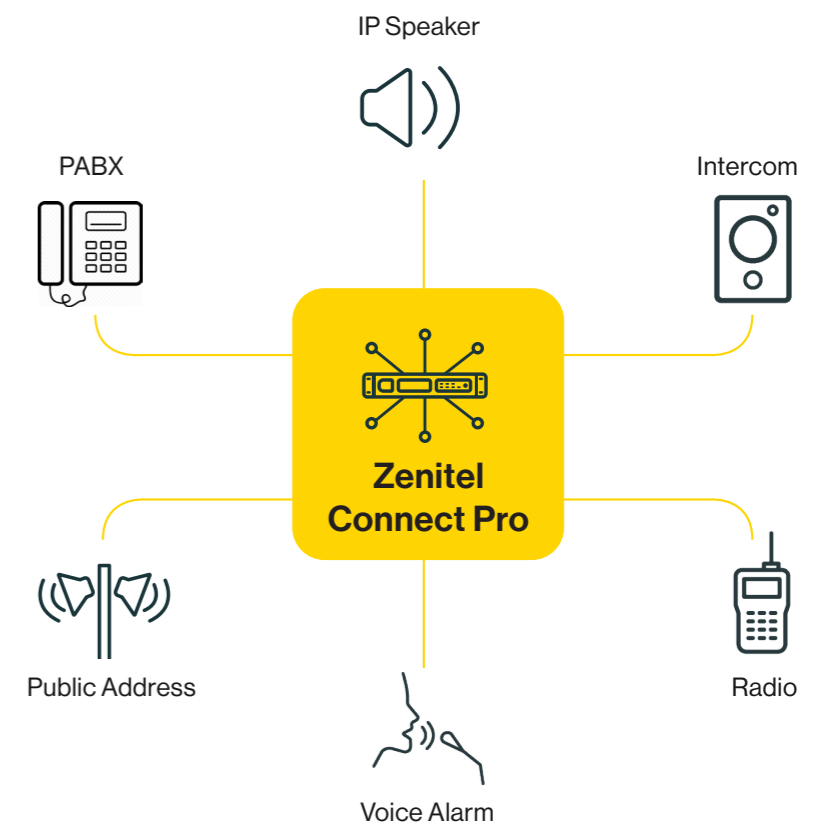

Zenitel Connect Pro

All critical communication in a single platform

Zenitel Connect Pro is the singular communication platform that is designed to cater for all your critical communication needs under one platform.

With the convergence of intercoms, IP speakers, public address, and voice alarm systems, Zenitel Connect Pro simplifies your business-critical communications. We help you transition from siloed communication to a unified and cohesive communication approach, enabling you to act swiftly on what you see and hear.

With open standards and security frameworks, Zenitel Connect Pro complement your video, access control, and other security systems; enhancing situational awareness, reducing response time, and optimizing overall security posture.
