Hardware Streamlining Notification
Re: MPS Microphones

To: Zenitel BU Onshore & Partners   06 November 2024

We would like to inform you that Zenitel will be merging several MPS microphone part codes. This is part of our ongoing initiative to simplify and streamline our product range, offering greater flexibility for our customers.

Please note, the new part codes can be ordered in place of the old part codes without any impact on projects. The combined variants will include both analogue/serial and IP interfaces, providing full flexibility while addressing any concerns related to stock handling and spare parts.

We will introduce the new MPS part codes in the 2025 price list.

Rest assured, we will continue to support and repair any MPS dispatched against the previous part codes in line with our warranty policies.

Your business is of great importance to us, and we remain committed to delivering cutting-edge technology to meet your PAVA application needs. Should you have any further questions, our team of engineers, account managers, and representatives are readily available to assist.

Thank you for your cooperation, and we look forward to continuing to serve your business.

Your Feedback

If you have any questions related to this bulletin, please contact your local Zenitel sales representative.
