

IPTV & Infotainment Solutions for Maritime & Energy Operations

Because Communication is Critical

Enhancing Crew Welfare, Operational Efficiency & Safety at Sea

IPTV Solutions

Prioritizing Crew Welfare with Custom Maritime Infotainment Systems

Crew mental health and well-being are the foundation of onboard efficiency and safety. Provide your crew with real-time ship tracking, global news updates, and a diverse selection of entertainment options, ensuring both engagement and well-being. These systems are designed to provide maritime users with exceptional reliability and flexibility, supported by modern broadband solutions like Starlink. Our safety-focused approach and seamless integration combine onboard entertainment and emergency broadcasts into one easy-to-use solution.

About IPTV Solutions

- Crew Welfare: Access to entertainment, real-time ship location, and radio.
- Operational Efficiency: Smart device management, GPS tracking, and remote control.
- Onboard Safety: Instant emergency alerts, seamless alarm integration, and automatic TV override for critical announcements.
- Optimized for Starlink & Low-Bandwidth Networks: Seamless performance onboard.

Why Choose Zenitel for IPTV?

- Seamless integration with critical communication systems, including PAGA, Intercom, CCTV.
- Cost-effective solutions with a broad range of equipment tailored to installations of all sizes.
- Flexible infrastructure for crew and passenger welfare - supporting entertainment, info sharing and safety messaging.
- Scalable & Customizable solutions tailored to specific needs of our customers.

Modern Features to Elevate Your Experience:

Safety & Emergency Communication

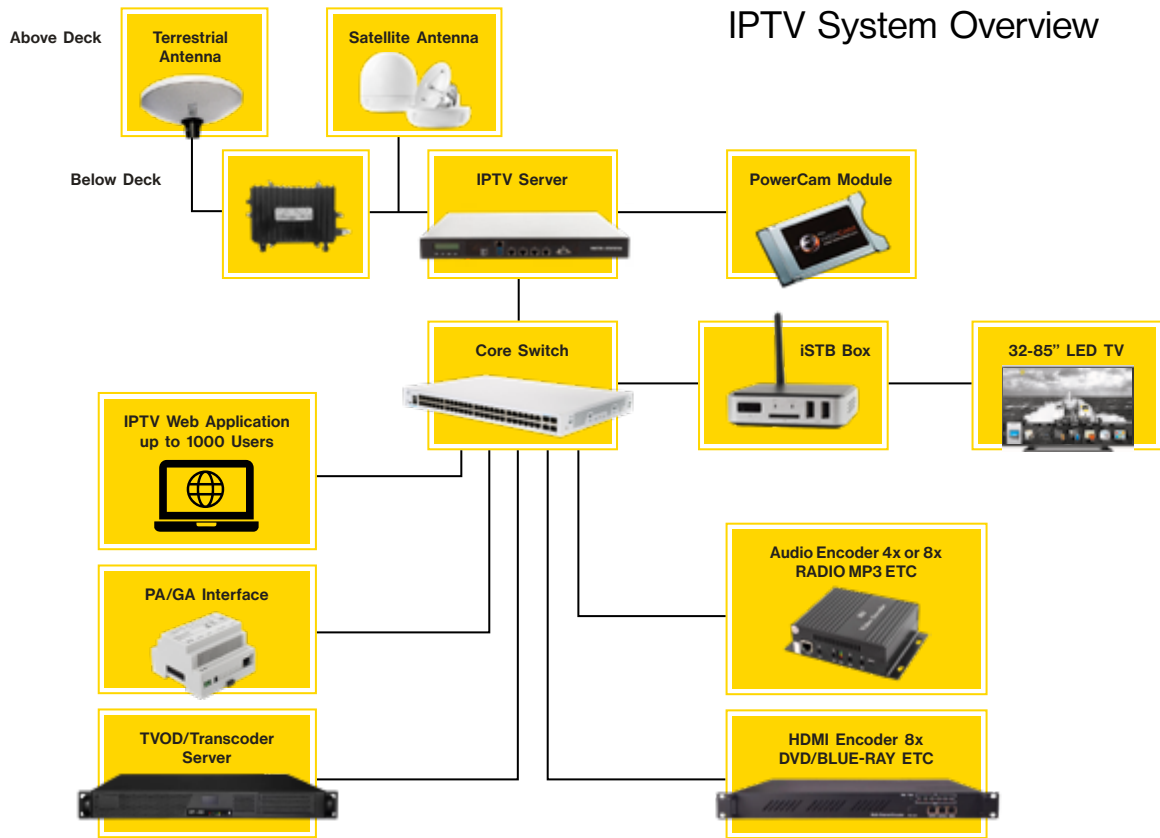

- TV Auto On/Off for Clock Alarms: Ensures TV sounds alarm even when off.
- Hardware Mute for Alarms: Automatically mutes TV sound during alarms to ensure critical announcements are heard.
- Media Playback Pause during Alarms: Pauses videos until alarms end.
- Scrolling Safety Messages: Displays evacuation, weather, and safety alerts.

Crew & Passenger Experience Enhancements

- GPS Tracking on IPTV Screens: Shows ship position in real-time, offline.
- On-Demand Movie Fetching (VOD Fetching): Auto-fetches IMDb details, posters, and trailers.
- Internet Connection Sharing for IPTV: Integrates seamlessly with ship's broadband.
- Radio MP3 Streaming: Streams in remote areas without satellite.
- BT Speakers & Amplifier System: High-quality sound for lounges and mess halls.

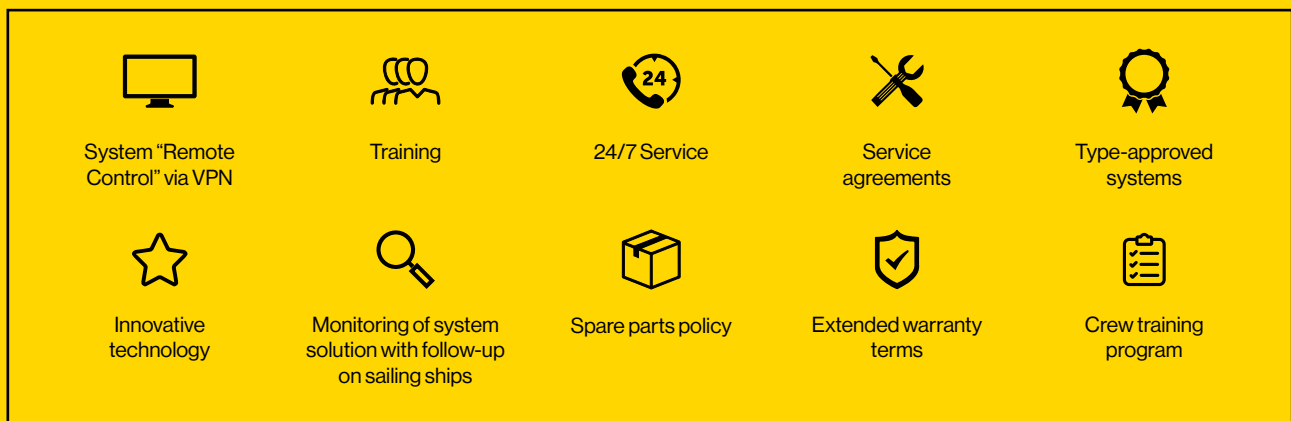

System Management & Flexibility

- iSTB – Device Management & Maintenance Utility: Centralized IPTV monitoring tool.
- Enhanced Connected Clients Feature: Displays real-time TV status & controls.
- Multicast Stream Recording: Enables operators to assess and ensure consistent stream quality.
- SSD Storage Upgrade: Faster and more reliable than HDDs.
- RTSP Stream Input with Password: Secure access to protected video feeds.
